The elementary years are fast-moving and exciting! They're also crucial to a healthy, happy adulthood. These are the years when your child is shaping into the person he or she will become.

Sarah Bubna, FSGC Case Manager, will offer tips for handling some of the parenting challenges unique to this age group, including ways to support kids as they grow and develop, mentally and emotionally.

You'll also be able to ask your specific questions about this topic! If you have questions, please enter them when you sign up. Then, Sarah will address as many of them as possible during the conversation.

**Spots for this virtual event are limited—first-come, first-served!
