Early childhood is the most important phase of a person's life. Connie Romig, Ph.D., Team Manager of FSGC's Early Childhood Intervention Program, will present information about some key early childhood topics, including:

- How to handle little ones who need constant attention
- Recommendations about handling tantrums
- Stopping kids from hitting, kicking and biting siblings (and you!)
- Thoughts about timeouts and discipline

You'll also be able to ask your specific questions about this topic! If you have questions, please enter them when you sign up. Then, Dr. Romig will address as many as possible during the conversation.
