

SAFESTREETS COALITION MEETING

Reporting criminal activity can seem unsettling. Feeling uncertain of the severity of the situation, fear of being caught, plus so many other reasons may deter someone from making the call to report a crime. Thankfully, our community has Shawnee County Crime Stoppers, an organization dedicated to promoting and encouraging community participation and citizen-based reporting to aid our local law enforcement professionals in the apprehension of criminals.

Jeri Cole, Shawnee County Crime Stoppers Coordinator, will be presenting at our upcoming SafeStreets Coalition Meeting on the organization, giving us insights into what they do to help motivate citizens to report crime, what tools they offer, and how easy it is to report a crime. She will also share information on the School Crime Stoppers Program: Scholastic Crime Stoppers.
