

FOSTER A PET WITH HHHS

WHAT KINDS OF ANIMALS NEED FOSTER FAMILIES?

Examples of pets needing foster care: pregnant animals, baby animals not yet big enough to be up for adoption, fospice (end of life care), weight gain, needing socialization, minor injuries, heartworm treatment, minor behavior work, awaiting transfer to rescue, etc.

HOW DO I APPLY?

Hop on our website hhhstopeka.org and navigate to Volunteer>Fostering Information>Submit a Foster Profile. Fill out and submit the online form, then wait to hear from us!

IS IT OKAY IF I HAVE SMALL KIDS, OTHER PETS, NO FENCE?

Yes! Not every foster may be the right fit for your home, but many times it's great for us to know how they do with kids and other animals, and there are plenty of fosters who don't require a fenced in yard.

WHAT HAPPENS AFTER I APPLY?

We may or may not have a foster immediately available that would be a good fit for your home. We really appreciate having you on our foster roster for when we get especially full and really need you!

I'M NERVOUS! WHAT KIND OF SUPPORT IS PROVIDED TO ME?

HHHS provides vet care, food, and other supplies you might need for fostering! You'll schedule vet visits and supply pick up times with one of the HHHS team members.

CAN I ADOPT ONE OF MY FOSTER PETS?

Of course! Foster parents get first dibs on adopting any foster pets they fall in love with. We encourage you to think seriously about if it is a forever pet meant for you. We hope our fosters will keep open spots in their homes to continue fostering - you can help the most animals that way!
