

## Successful Connections

### LUNCH & LEARN

**Presenter: Lynn Smith  
Community Prevention Specialist  
Prevention and Resiliency Services**

Lynn is a graduate of Kansas State University with a degree in kinesiology. Lynn joined the Prevention Services Department at PARS in June 2012 as a Community Prevention Consultant. In this role, Lynn gives school and community presentations addressing substance abuse and prevention education.

Before joining the Prevention Services Department, Lynn spent six years with Safe Streets (another program of PARS). At Safe Streets, Lynn was the Youth Development Coordinator and Community Mobilizer. Lynn's interest in Prevention work stems from wanting youth to succeed.

In addition, Lynn understands firsthand how using substances can negatively impact one's life, so Lynn feels it's important to educate today's youth about the dangers of using alcohol, tobacco, or other drugs. Outside of work, Lynn enjoys coaching sports and has done this for the past 20 years.

### Vaping & Drug Awareness

This Presentation will look at rates of use for vaping amongst youth in Shawnee County. Will also look at the role media marketing plays in substance use and discuss the different types of vapes.

In this presentation participants will:

- Learn to Identify marketing techniques being used to target youth
- Discover the chemicals found in e-cigarette aerosols
- Be able to Identify warning signs of substance use
